

WHY DO VOLUNTEER BACKGROUND CHECKS?

PROTECT YOUR ORGANIZATION

Organizations with volunteers have a moral and a LEGAL obligation to provide a safe environment for those that they serve. The good news is that today the majority of youth sports organizations require volunteers to undergo some form of background check. The bad news is that there isn't a standard screening protocol that all organizations abide by and the variation in methods used is staggering—as are the results – or lack thereof.

ACCORDING TO THE NATIONAL CHILDREN'S ASSESSMENT CENTER

Most child sexual abusers are men, and may be respected members of the community drawn to settings where they gain easy access to children like schools, clubs and churches. They come from all age groups, races, religions and socioeconomic classes.

Most victims know and trust their abusers. It isn't strangers our children have to fear most.

PROTECT THE CHILDREN YOU SERVE

Pedophiles Want to Work/Be Around Children. A pedophile will often be employed in a position that involves daily contact with children. If not employed, he will put himself in a position to do volunteer work with children, often in a supervisory capacity such as sports coaching, contact sport instruction, unsupervised tutoring or a position where he has the opportunity to spend unsupervised time with a child.

NOTE: To assure accuracy in applicant identity, a Social Security Trace MUST be run in conjunction with the Nationwide Criminal Report.

SOCIAL SECURITY TRACE

The SSN Trace provides the state and year of Social Security Number issuance, even when the number does not match the applicant information provided, in addition to an expanded address history for the life of the SSN. This expanded address history shows all of the addresses where an applicant has resided and is used to select the counties to run for the manual County Courthouse Search. All records are also indexed against a deceased registry to verify validity. The SSN Trace is also a great tool for ensuring an applicant isn't intentionally omitting an address from an application, where criminal activity may have occurred.

ORDER REVIEW

What is “order review”, who does it, and how can it help me as an employer? Order review is the process of reviewing criminal records & applying specific criteria & identifiers that:

- Ensure the records really belong to the applicant
- Ensure that an organization is ONLY seeing records that they are legally able to see
- Arrests vs. Convictions
- State Laws (California)

An “Order Review” will be completed on each report with a “hit” by Reference Services, Inc.
